## BLAIRMORE ENTERTAINS GOVERNOR-GENERAL

Hundreds of citizens of Blairmore, Frank, Hillcrest and Bellevue assembled at the depot here on Friday forenoon last to greet Their Excellencies, Lord and Lady Byng of Vimy.

On arrival of the train from west, welcomed by Mayor McLeod and the Governor-General and party were

welcomed by Mayor McLeod on behalf of the people of Blairmore. The subdivision seven and all of legal usages on ten, south of the C. P. R. tracks, including the famous sulphur springs.

To His Excellency the Right Honorable Julian Hedworth George, Baron Byng of Vimy, G.C.B., G.C. M.G., R.V.O., Governor-General and Commander-in-Chief of the Dominion of Canada.

Your Excellency:

The people of Blairmore, I assure you, appreciate beyond my words this visit of Your Excellency. Lady Byng and I, we are sure, they will appreciate it all the more had it been more extended. We know, however, that your time is limited by the many demands upon it, and the only thing we can do is to assure you that we are deeply sorry to deprive you of the pleasure of showing you some of the many places of beauty and interest in the Crown. Rest Pass.

We of course welcome you chiefly as His Majesty's representative in Canada; but beyond this we greet you as one who has brought to your high office that measure of efficiency, that tact, that skill, that has so

prominently distinguished the Empire in other fields.

There are other ties, however, which bind us closely to the Empire, and these are most intimate. More than a hundred of our men voluntarily enlisted in the army of Canada and served in the Great War, and after fully sharing in the brotherhood of war, many of them now share the soil of Belgium and France. Happily many have returned, and those of them who have the good fortune to live here, your Excellency command have a double welcome to extend to you—Governor-General of Canada and as Commanding Officer of the Canadian Corps of Engineers, we welcome you. We assure you that our veterans, without exception, would wish to express to Your Excellency individually their cordial remembrance and esteem.

Yours sincerely and truly, Frank, with all the best regards of all the most resourceful areas of Canada. Under normal conditions the daily output of the

## FRANK REAL ESTATE CHANGES HANDS

As we go to press we learn that the savings rights at Frank, formerly owned by the Canadian Consolidated Coal & Coke Company (later the Franco-Canadian Collieries), have been purchased by Capt. W. A. Beebe, of Blairmore.

The property includes part of legal subdivision seven and all of legal usages on ten, south of the C. P. R. tracks, including the famous sulphur

The property has been in the hands of The Trusts & Guarantees Company, Limited, of Calgary, and the estate is now being wound up.

A bid for the purchase of the old Sanatorium hotel and the Gehr residence, and some other buildings, made by J. Michalsky, of Coleman, is being considered by the Trust & Guarantees Company, and will likely be accepted.

Work on the new \$130,000 coal washer, being erected here by the West Canadian Collieries, is progressing rapidly and the plant will be in readiness in the course of a few weeks.

mine in this vicinity is upwards of six thousand tons of high grade coal, and our capacity to produce is measured only by the capacity of our market. We are sure that the coal from either of the industries we mention, this only to remind Your Excellency that you are now in one of the most potential industrial centers of Canada.

Yours sincerely will please convey to His Majesty the assurance of the loyal attachment of our citizens to his throne and person, and accept for me and Lady Byng our warmest greetings.

His Excellency's grace reply as follows:

Mr. Mayor, Ladies and Gentlemen:

As representative of His Majesty the King, I shall be delighted to receive in this city your messages of loyalty. We of the British Empire, respect him both for his high sense of personal duty and also for the constitutional and traditional great Commonwealth Nations.

When I was appointed Governor-General, I felt optimistic about the task which confronted me because I believed that in a spirit of cordial harmony with the whole Dominion as existed between the Canadian Corps and myself, I was very proud to consider that the splendid record made by our men during the war and in coming to Canada I consider myself most fortunate in being able, not only to renew old friendships, but also to meet their families and those they held dear. I have listened with great interest to your account of the work and the results of the patriotic and heroic efforts of our men, and I desire to help in any way I can in the progress of this Land; for that reason, among many others, we are glad to have here today so that many dear friends and relatives of those in the conditions under which you live and what you are trying to do. We believe that this Dominion has a great future before her. The British people will enable her to attain it. But if you can show us any way we can help you we shall be very ready to do our share.

Ladies and gentlemen, Lady Byng and myself deeply appreciate your kindness towards us today. We are sincerely delighted to be with you and to represent the royal family. It is not necessary to be short here. I hope it may be possible for us to visit these parts again before my term of office expires.

Members of the town council, school board and other organizations, and people in general, were present.

On behalf of the L. O. D. E., the local regent, Mrs. L. H. Putnam, presented two beautiful bouquets of flowers, carried by little Misses Margaret Mackenzie and Thelma Howe, to Lady Byng.

Lord Byng next inspected the Veterans, who were lined up in charge of Capt. W. J. Fisher. He greeted each one in the line and in some cases chatted with them for several minutes.

Expressing a desire to see the Frank Slide, the party were taken to that point by auto, while the vice-regal train went to Frank to prepare for the return west to Coleman and Fernie.

Stop for thirty minutes was made at Coleman.

The Bellevue band was in attendance, playing the National Anthem upon arrival of train and "O Canada" while being sung by the school children.

## Junior Provincial Championship

To permit everyone of an opportunity of witnessing the Junior Baseball Provincial Championship games between Medicine Hat and Blairmore, all stores will close Friday afternoon from 2 to 4.

## PROVINCIAL JUVENILE GAMES TO BE PLAYED HERE

The definite date has not yet been announced, but in all probability will be within the next two weeks.

We understand that arrangements are being made for the playing of the

Alberta Juvenile championship games

The regular fortnightly meeting of Blairmore and the competing teams the town council on Monday night will be the Calgary "Vics" and Blairmore was presided over by Councillor J. A. McDonald, in the absence of the Mayor. Blairmore has a strong lineup in or and deputy-Mayor. Beyond the juvenile Taxis beats and three passing of a few small accounts, very good games may be looked forward little business was transacted.

## To Insurance Beneficiaries

Hundreds of thousands of dollars are lost annually through the unwise investment or careless spending of monies received for insurance death claims and matured endowments. A Union Bank Savings Account is the proper place for the deposit of such monies. If Beneficiaries seek investments, our branch managers are always willing to help them with sound and conservative advice.

## Home Training And Respect For Law

There is widespread discussion at the present time as to the cause of the crime wave sweeping over the continental United States in Canada, as in the United States, although this Dominion is also affected. As a matter of fact, Canada can never wholly escape influences emanating from the United States, whether they be good or bad, and if conditions, customs, laxity in law enforcement, or any other circumstance leads to the development of criminal instincts and acts in the United States, this Dominion is sure to suffer therefrom to some extent. Canadians are, therefore, vitally interested in the trend of events across the line.

Chicago, for example, has a record of a murder a day for the first six months of this year, a fact to which the appalling crime of which the two youths, Loeb and Leopold, stand confessed, has directed more than passing attention. Everywhere the question is being asked: What is the cause of this crime wave?

There are undoubtedly more causes than one, and consequently many are advanced. Some are given. So blame it on the war and to the fact that for four years human life and property were the chiefest commodities in the world, and millions of men became almost indifferent to the shedding of human blood. But any such answer is probably incomplete.

Others declare the underlying cause is disregard for Law, and many who advance this reason point to the utter contempt and open defiance of the Prohibition laws by thousands of otherwise good citizens as the chief reason, for prevailing disregard of all law. But it is open to question whether individuals have less respect for prohibitory liquor laws than they have for our state, Sunday observance laws, or Customs laws. It is unfortunately true that few people are inclined to resist the temptation to smuggle something if the opportunity presents itself.

Nevertheless it is no doubt true that disregard for Law has a great deal to do with the crime wave. But the underlying cause is deeper than that. It must be first discovered what has resulted in this disregard for Law. There is, of course, the propaganda of the L.W.W.'s, the Bolsheviks, the Red Communists, who would do all law and destroy the existing order of Society. But the real cause is human nature.

Disregard for Law is being propagated and developed among the boys and girls of today through the laxity of parents in enforcing proper respect and obedience at home; through their failure to instill in the children the desire to know and respect the rights of other people and other people's property; by their neglect to train children to be above all things honest, truthful and honorable; because, in fact, parents themselves are guilty of deceit in their dealings with children, and fail to inculcate ideals of honor and Golden Rule principles in the lives of the rising generation. Too many parents today leave such training to the church and the school, but these can never replace the home, and home training; the best that can do is to further develop and strengthen right ideals in thought and living.

Children are brought up on fables. First, there is the Santa Claus fable, instead of early teaching that the giving of gifts at Christmas time is symbolic of the giving of God's greatest gift to mankind. Thus the opportunity to teach unselfish thought and action for others is lost, and the greatest lesson that is more blessed to give than to receive neglected.

Then, arising out of a fable conception of life, comes the deceit where parents explain the appearance of a new baby to the older children as a gift from a god, whereas the opportunity of recently instructing the older boys and girls in the true meaning of life and the mysteries of life should be embraced. As they grow older children remember the fables and come to the conclusion that if it was right for father and mother to deceive them, it cannot be otherwise than right to practice deception themselves. When truth is thrown into the discord the chief foundation stone of respect for Law is undermined.

In the evidence brought out in the trial of Loeb and Leopold to establish that they were not normal mentally, there have been some amazing disclosures of mistakes made in their early training, clearly establishing that had these measures been taken their whole future would have been radically different.

It is in the matter of home training that a revolution for the better must be worked if the basic cause of crime is to be removed. If children lose respect for parents and teachers, it is an easy step to lose respect for law, and then lawlessness follows as an inevitable result.

## Relics Of George Washington

Armies In England Present Valuable Relics to Manor House

When the delegates to the American Bar Council recently visited the Salgrave Manor in England, they presented several valuable relics of George Washington to the Manor House. These include a saddle bag and a liquor chest used by Washington in the Revolutionary War, given by Colonel Walter Scott, of New York; a parchment dated March 4, 1769, by which Salgrave property of the Washingtons was transferred to their relatives, the Makepeaces, and a coffin handle from the first coffin in which Washington was buried, the gift of Joseph G. Butler, Jr., of Youngstown, Ohio.

The New York branch of the Daughters of the American Revolution gave a silk flag of the Salgrave Institute of America at the same time.

Beware of the amateur who plays poker with a winning smile.

The butterfly fish remains absolutely motionless throughout the day.

## Western Stock For Eastern Fairs

Saskatchewan to Compete at Guelph, Toronto and Ottawa

Saskatchewan will compete this fall at Toronto, and then at the exhibition split, some going to Ottawa and the rest to Guelph. It was decided in Regina at a meeting of the Saskatchewan Livestock Board. There was considerable difference of opinion as to whether the Saskatchewan exhibit would take in Chicago International or whether they would just do the Canadian show.

The board also decided to hold the Saskatchewan and the Regina sheep and swine sales the same week, beginning Oct. 27 in Saskatchewan and Oct. 30 in Regina. Although the entries in the eastern shows will have to be made before this date, the dates are such that the stock can be easily chosen at that time. A trade committee consisting of R. A. Wright of Drinker, Swartin, Maggert, Rees, and Livestock Commissioner Robertson, was appointed to make final decision regarding shipment of the stock to the eastern shows.

Minard's Liniment Relieves Pain

A Florida man recently announced his desire to bequeath his skin to his friends for the purpose of bookbinding.

English and American fiction writers are more popular in Russia than native authors.

## Alberta Straw Industry

Will Manufacture Paper, From Surplus Quantities Of Straw

Howard Stutchbury, Provincial Trade Commissioner, is expecting an early in the month report from the Government Laboratories at Ottawa, regarding the samples of paper manufactured from Alberta cereal straw, which were forwarded a few weeks ago.

Alberta straw has proved to be a highly economical and satisfactory substitute for wood pulp in the manufacture of paper, and as soon as a report is received from the east, it is anticipated that the product will be placed on the market.

Several capitalists here, it is said, are prepared to finance the new manufacture, which should eventually utilize the vast surplus quantities of straw in the province, and also release large tracts of land from the certainty of destruction. — Edmonton Bulletin.

## On the Marriage Day

Romance usually ceases and history begins, and soon corn begins to go when "Putnam's" is applied. It takes of a single corn left after Putnam's Palmetto Corn Extractor has done its work. 25¢ at all dealers. Refuse a substitute.

## Celebrate Founding of Halifax

British Special Service Squadron Arrived On 175th Anniversary

The arrival at Halifax of the British Special Service Squadron coincided with the celebration of the 175th anniversary of the founding of Halifax by Lord Cornwallis, when he, with 2,000 pioneers, sailed up Chebucto Bay in 1749 and landed on the site of the present city.

The replica of Lord Cornwallis' bat-talions, Spanx, sailed down past the Hook, marching highland machine in the world, and opened the pageant of the landing of Cornwallis on the shores of the northeast arm.

## GUARD BABY'S HEALTH IN THE SUMMER

The summer months are the most dangerous to children. The complaints of that season, which are character infantilis, colds, diarrhoea and dysentery, are not confined to a little one; it is beyond aid before the mother realizes he is ill. The most useful medicine to prevent an attack of diarrhoea is to drink water on suddenly to banish it. No other medicine is of such aid to mothers during hot weather as is water. The body loses water through the stomach and bowels and is absolutely safe. Sold by medicine dealers or by mail at 25¢ a box from Dr. Keen's, 1110 Yonge Street, Toronto.

## CANADA WOULD SEND DELEGATES TO CONFERENCE

Ottawa—Canada stands ready to appoint delegates to the proposed conference in London next fall to find a basis for future discussions of foreign policy of the Empire. Dispatches to this effect were sent by the Canadian Government to Colonial Secretary Thomas.

In the course of a discussion, Prime Minister Mackenzie King said that if the conference were held, Hon. Ernest Dandurand, Government leader in the Senate, and Hon. E. M. MacDonald, Minister of Defence, would probably be the Government's representatives, with Dr. O. D. Skelton, Counsellor to the Department of External Affairs, acting as advisor. These three will be in Europe for the League of Nations Council in September.

The Canadian Government reserved the right to appoint its delegates. Premier King stated, in answer to a question as to whether he favored the idea of sending leaders of oppositions to Empire conferences, "The conference now under discussion was a preliminary one, and did not call for the attendance of Government leaders. But his general attitude to the question was that since the Government had adopted a policy, and the policy adopted, and the leader of the opposition must perform the duty to the best of his ability, there could be no useful purpose served by the attendance of leaders of the opposition at formal Empire conferences."

In the course of a statement, Premier King said it was not thought advisable, in the communication sent to the various Dominions by the British Government at this time, either to revive the idea of a constitutional conference or to call a special meeting of the imperial conference. The purpose was expressed as solely that of considering the difficulties met with in consultations and negotiations on questions of foreign policy, and presenting a report as a basis for further discussion.

### Typhoon Sweeps Japan

#### Two Hundred Missing In Flood That Follows Storm

Tokio.—Two hundred persons are missing, and many are believed dead as a result of floods along the Tamsui River, in Northern Formosa, according to dispatches received here. Railway traffic has been stopped, and many of Tainkuo is completely isolated, it is said. They said that thousands of houses in Tainkuo have been inundated.

Nagasaki, Japan.—A typhoon swept the south of Japan, including the islands of Kiusiu and Formosa. The railways everywhere are interrupted and the telephone and telegraph lines of Kiusiu are paralyzed. A flood line is reported at Tainkuo, capital of Formosa.

The seaports of Osaka and Kobe are unaffected.

#### MacLaren Invited To Celebration

Seattle.—An invitation to attend a celebration in Seattle, about the last of this month, for the United States army world airmen on completion of their 27,000 miles round-the-world expedition, was extended by Major A. S. MacLaren, commander of the British round-the-world expedition, by the Seattle Chamber of Commerce. Major MacLaren and his companions are en route to Vancouver.

#### Wheat Cutting In Alberta

Lethbridge.—Spring wheat cutting has started on a 320-acre field on the Ober farm at Coaldale. The yield is estimated at 25 bushels an acre. Cutting has also started at Barwell, Willow Siding, Milk River and other points in Southwestern Alberta, and will be general this week, except in districts close to the mountains, where the crop is very heavy.

#### Seeking Work In States

Washington.—Large numbers of Canadians are coming into this country because of lack of work in Canada, according to Labor, the official organized labor publication here. It is pointed out that there is nothing in the new immigration law to prevent native Canadian workers from entering this country.

#### Polish Government Protests

Moscow.—The Polish Government has sent two notes of protest to Moscow and to the Russian Soviet legation here. One concerns the recent attack on the town of Sosnowiec, in which a number of Polish miners were killed, and the other the condemned imprisonment of two members of the Polish mission in Moscow.

Rabbits cost Australia \$125,000,000 by eating pasturage which otherwise would feed 30,000 sheep.

## Grading Of Bacon Necessary To Capture British Market

Toronto.—The Ontario farmer is better off than his brother across the Atlantic, but he must produce goods of first-class quality in order to capture the English market, said Hon. J. S. Martin, Minister of Agriculture in Ontario, on his return from a tour of Britain and the Dominion. "Grading of bacon is essential if Canada is to compete in the British market with Denmark," said Mr. Martin. "Agricultural workers will be available from Scotland and Ireland, but not many from England. Scandinavia and Holland, however, may be the Government's representatives, with Dr. G. D. Skeaton, Counsellor to the Department of External Affairs, acting as advisor. These three will be in Europe for the League of Nations Council in September.

The Canadian Government reserved the right to appoint its delegates. Premier King stated, in answer to a question as to whether he favored the idea of sending leaders of oppositions to Empire conferences, "The conference now under discussion was a preliminary one, and did not call for the attendance of Government leaders. But his general attitude to the question was that since the Government had adopted a policy, and the policy adopted, and the leader of the opposition must perform the duty to the best of his ability, there could be no useful purpose served by the attendance of leaders of the opposition at formal Empire conferences."

In the course of a statement, Premier King said it was not thought advisable, in the communication sent to the various Dominions by the British Government at this time, either to revive the idea of a constitutional conference or to call a special meeting of the imperial conference. The purpose was expressed as solely that of considering the difficulties met with in consultations and negotiations on questions of foreign policy, and presenting a report as a basis for further discussion.

The addresses presented by the province and the city spoke of the close and happy relationship that had always existed between Halifax and the British navy, the port having been the headquarters of the North Atlantic fleet of the British navy from 1749 until the present when requirements of strategy demanded concentration of naval strength in the North Sea.

### Want Self-Government

#### Religious Intolerance Stands In The Way Of India's Advancement

Toronto.—India's trouble is not political, it is religious. The bitter and fanatical intolerance of the Mohammedans is the evil force which precludes a working agreement with the liberal-minded Hindus and obstructs the way to realization of national aspirations, according to Professor C. V. Raman, who holds the chair of physics in the University of Calcutta, India, and who is one of the most picturesque and most interesting visitors to the annual meeting of the British Association for the Advancement of Science.

"The great desire of the people of India is to obtain self-government," Professor Raman said, "and really they are not antagonistic to Britain. They wish to co-operate with Britain and to remain allies of Britain, but just now their great aim is to receive the full nature of self-government as has been extended to Canada, Australia, New Zealand and the Irish Free State.

### Bad Floods In India

#### Estimated Deaths Are 100 and 50,000 Persons Homeless

Madras, British India.—The floods in Southern India which, according to previous dispatches, submerged half the state of Cochin, caused at least 100 deaths at Malabar, according to official reports. The loss of life elsewhere was comparatively small.

It is estimated that 50,000 persons are homeless while thousands of acres of crops have been ruined. There has also been a severe outbreak of cholera and dysentery, of which 100,000 cases of cholera and 100,000 cases of dysentery have been reported. Money for the purchase of seed, cattle and building material is badly needed also.

### Duke Of York Not Coming To Canada

#### Is Sailing In November For British Africa

London.—The Duke and Duchess of York will sail for British East Africa in November, it is announced. Their tour will include Kenya Colony and Uganda and will take three months. The Duke's engagements will likely include much big game hunting.

It was learned by the Canadian Press that there is absolutely no foundation for the suggestion that the Duke of York will visit Canada with the Prince of Wales.

#### Must Pay Liability

Toronto.—"Action is to be taken immediately against those who have neglected, or refused, to pay their double liability in connection with the Home Bank or who have not put in a defense against their liability," said G. T. Clarkson, liquidator of the Home Bank.

## No Pension Claims After This Month

#### War Veterans Must File Disability Claims Before Aug. 31st

Ottawa.—Canadian ex-service men are reminded in a bulletin issued by the Dominion Council of the Great War Veterans' Association that all claims for disability pensions will be outlawed after August 31, 1924.

The bulletin states that "every ex-service man who suffers from any disability, which he believed to be related to his war service, should file his claim immediately. Such action may not lead to an early adjustment in his favor, but he will secure the basis of full consideration ultimately, and protect himself respect to any development of the disability."

This warning also applies to dependents' claims, except that application may be made within three years after death, or the date on which the veteran became dependent. The bulletin further states that "during recent years many disabled veterans have abandoned all hope of pension following the receipt of a communication from the Pensions Commission that the disability was not attributable to war service. These men are advised to again test their rights to pension."

## ARE WILLING TO CONSIDER PLANS FOR H. B. ROAD

#### Ottawa—Hon. George Graham, Minister of Railways, indicated his willingness to discuss "any reasonable proposition" for the taking over of the Hudson's Bay Railway.

Informally, a proposition of the kind has been put before some of the ministers, but Mr. Graham stated that he had not considered it to be very definite. He thinks the case is one in which the western provinces should have a vital say.

"If they come forward with, or in support of, a scheme for taking over the railway, I will consider it," said Mr. Graham. "I would be glad to negotiate with them with the Minister of Railways."

In the recent discussion in the House, when a motion of censure on the Government was moved for not completing the line, hostility to the scheme as an ocean outlet was indicated plainly. As a colonization line it was more favored, but it was evident that missionary work will be needed on all sites, including the Provinces before there is parliamentary endorsement of it. A new prospect is opened up in the possibility of private or provincial interests acquiring and completing the line.

### No Harvesters From Britain

#### Transportation Companies Notified That None Will Be Needed

Ottawa.—There will be no harvest movement from the United Kingdom to Canada this year according to the Immigration Department, regard it as undesirable to permit a return movement of seasonal laborers from the west of Britain, men too few in the harvest fields of the west.

Transportation companies have been notified of the Government's attitude in the matter. It is believed that there will be more Canadian farm labor available in the west this year than usual, and that whatever help is needed beyond that will be obtainable.

#### Killed By Outlaws

Mexico City.—Seventeen defenseless men were killed and another wounded when a band of fifty armed outlaws attacked a hacienda near Ojinaga, state of Yucatan, according to a special dispatch from Merida to El Universal.

#### LADY BYNG COMES HOME

#### The Lord Mayor and Lady Mayoress of Liverpool, bidding good-bye to

London.—Harold A. Kullberg, 28, one of the best-known airplane pilots in the country, and who, during the war as a lieutenant of the Royal Air Force, engaged 11 German planes, and Henry Doster, 34, of Hudson, Ontario, were killed in a commercial airplane in which they were flying west into a nose dive and fell 2,800 feet near Hudson, Ohio.

The Lord Mayor and Lady Mayoress of Liverpool, bidding good-bye to

## Gives Valuable Aid

AMBASSADOR KELLOGG

chief American plenipotentiary at the Allied Conference in London, has sent all his efforts towards healing the breach between the French delegates and Anglo-American fin-

## Appointed Manager Of Saskatchewan Wheat Pool

Regina—Donald MacLae, of Regina, has been appointed general manager of the Saskatchewan wheat pool. Mr. MacLae is well known to the farming community throughout the province, his work with the Saskatchewan Co-operative Elevator Company having brought him into close contact with grain growers. Mr. MacLae was chief superintendent of country elevators for the company in 1920, following the resignation of Mr. Thordarson, and in 1921 he received the appointment of chief superintendent.

### Harvest Soon In Manitoba

#### Wheat Cutting Will Be General By August 23rd

Winnipeg—Wheat cutting will be general in Manitoba by August 23, according to the official crop report of the Manitoba Department of Agriculture. In a few isolated sections, however, particularly in the wheat harvest will be delayed until about September 1, the report says. The report adds that the crops are maturing gradually, and that the filling out stage is well progressed.

The recent rust scare is characterized as "greatly exaggerated," and unless the rust develops faster from now on, "it should be only a small factor in connection with the earliest crop," the report states.

Damage from sandy and hail frost is reported as "negligible."

### Branch Line Construction

#### Active Work Has Commenced On C.N.R. Extension Work

Winnipeg—Work has started on the Canadian National Railway Ravelbourg extension, to which royal assent was given about three weeks ago, according to arrangements by officials of the company.

Steel is now being laid on the 11 miles of road, which is needed some time later. Completion of the section of the extension will be expected to other authorized branch lines of the company within the province.

In addition to these lines, five others will be constructed in the western provinces—three in Saskatchewan and one each in Alberta and British Columbia. The branch lines will cover a distance of 162 miles, and tenders for the clearing, grading and installation of culverts are now in the hands of the chief engineer. No contracts, however, have been awarded.

## JAIL SENTENCES FOR SMUGGLERS IS ADVOCATED

#### Ottawa—Jail sentences for professional smugglers were advocated by a delegation representing textile and other industries of Canada which waited on Prime Minister Mackenzie King and members of the Cabinet to emphasize the gravity of the situation resulting from the growth of smuggling of goods into this country. R. Peter Sparks, President of the Association of garment workers, acted as spokesman for the delegation and stressed the enormous extent to which smuggling had grown.

The delegation advocated stern measures to deal with the professionals smugglers and suggested that if such measures were adopted steps would be taken by interested organizations to form a bureau to co-operate with the Government in the arrest of such persons.

It was claimed that many of the big textile firms were being driven to the verge of bankruptcy and that the revenue lost in annual revenue estimated at least not less than \$10,000,000 through smuggling.

Following the conference, members of the delegation stated that they had received an excellent hearing and that the Government had promised that immediate attention would be given to the matter.

#### Air Pilot Killed In Crash

Cleveland—Harold A. Kullberg, 28, one of the best-known airplane pilots in the country, and who, during the war as a lieutenant of the Royal Air Force, engaged 11 German planes, and Henry Doster, 34, of Hudson, Ontario, were killed in a commercial airplane in which they were flying west into a nose dive and fell 2,800 feet near Hudson, Ohio.

#### To Unearth Palace

London.—A "sun-worshippers' palace will be completely unearthed in a region 160 miles south of Cairo next year by archaeologists of the Egyptian Exploration Society. It was announced at a meeting of the society recently. The palace, as yet only half revealed, covers an area of 430 by 340 feet.

French-Canadians Returning

Quebec—Convinced that after all they were better off in their native province, hundreds of French-Canadians who went to New England in the last two years, are returning either to their farms or to their former jobs here, according to officials of the colonization department.

## ALLIED PROGRAM OF PAYMENTS NOW ACCEPTED

London—The Germans have accepted a moral engagement to load a loan of £40,000,000, thereby fulfilling one of the most important of the Reparation Commission's requirements before the Dawes plan can be considered. Accordingly, the example of the allied programme of a debt of £100,000,000 has been accepted by the Germans, and rapid progress has been made in obtaining German approval on other phases of the allied agreement for putting the plan into operation.

Another important development was an agreement between the allies and Germans under which the Dawes plan can be enforced 10 days earlier than October 15, the date which had been agreed upon. Since the moment of their arrival the Germans have been urging that the plan be made operative at the earliest moment. The new date, therefore, was set for October 5 as a concession to Chancellor Marx. The early launching of the plan is contingent upon necessary legislation being passed by the Reichstag prior to August 15.

If the new reparations plan is effective by October 5, another concession will be made by Germany by the surrender of the customs barriers 12 days earlier than under the previous arrangement.

The council of 14 would, upon consideration of the first experts' committee report, there was rapid progress in the discussion of the second and third committee's reports, when a practical agreement was reached on all points of difference in the problem of economic and fiscal unity of Germany. Among the issues settled was the return of the Ruhr for all but a few of the serious offensives against the authority of the Rhinehalden commission.

During 1923-24 Value At Par Was \$94,200

New York—During the British financial year 1923-24, the British Government received £94,200 in value of dyes from Germany, valued, at par, of £5,000,000. The gross amount received for the sale of dye stuffs, which included an accumulation from previous years, amounted to £1,672,250, while the total amount of commission and all other charges incurred in disposing of the dyes, including freight from Germany and storage, was £194,610.

According to advices received by the Bankers' Trust Company of New York from its English information service, the value of the total amount of dyes received from Germany since these shipments commenced in 1920, was \$60,130,000. The total amount received from Germany in 1923-24, or £5,000,000, the total amount of commissions and all other charges incurred in disposing of these dyes amounted to \$1,662,670, or 15.21 per cent of the sales.

### Swiss Planning To Climb Mount Everest

#### National Expedition Is Scheduled To Start In Spring

Geneva, Switzerland—an expedition which will attempt to ascend Mount Everest. The leader of the Swiss team, scheduled to start in the spring of 1925, is a well-known Swiss Alpinist, who already had experience in the Himalaya Mountains. His assistants will be some of Switzerland's best climbers, none over 35 years old.

The Swiss intend omitting the heavy oxygen apparatus carried by the British expedition which attempted the climb. Instead, they will carry small bottles of compressed and liquid oxygen to be injected by syringe, and needle into the arteries if overcome by breathing difficulties.

#### Explorer Back From Central Australia

Aldate, Victoria, Stefansson has returned from his exploration of Central Australia, reporting that only a water supply is needed to make more than half of what is now barren country productive. Furthermore, he believes that water can be found. The explorer was impressed with the similarity of the pioneer life of Central Australia with that of Canada, 40 years ago.

French-Canadians Returning

Quebec—Convinced that after all they were better off in their native province, hundreds of French-Canadians who went to New England in the last two years, are returning either to their farms or to their former jobs here, according to officials of the colonization department.

### TIME FOR A SETTLEMENT

To the Hon. James M. Brook, Minister of Labor, and others who may be exercising their efforts with a view to terminating the present dispute between the coal operators and the miners in District 13:

The Drumheller Review has no desire to make suggestions to you as to what course you should take in endeavoring to bring the two parties together with the object of effecting a speedy settlement and an early resumption of operations at the mines. This paper realizes that the miners and operators themselves are the most directly concerned in the controversy and that it is hardly within the province of outsiders to suggest what scale of wages the operators should pay or what remuneration the miners should receive. As you are well aware, however, there are interests other than those directly associated with the coal business whose welfare depends upon an early resumption of operations. Business men in the area where coal mines would be operating but for the present dispute are, so to speak, marking time pending a settlement, whereas if the mines were working they would be doing a big business, employing more help and collecting some of the accounts from those to whom they have given credit during the period of inactivity, and would thus be better able to meet their obligations to the wholesalers and manufacturers. Craftsmen in trades other than those associated with mining would be beneficially affected by an improvement in trade conditions which would naturally follow a resumption of operations at the mines. Railroad workers who are at present getting little or no work would be employed steadily and would be relieved of the worry occasioned by the uncertainty of earning a livelihood for their families and themselves during the coming winter. In short, everyone would profit by a resumption of operations.

Then, the interest of the farmers and residents of cities and towns in the prairie provinces east of the coal mining areas must be considered. If a coal shortage is to be avoided during the coming winter, now is the time to start shipping coal east before the crop movement starts and the facilities of the transportation companies are unduly taxed. To you, therefore, Hon. Mr. Brook, the people of Alberta and southeastern British Columbia are looking with anxious eyes, depending upon you, as a representative of the government, to leave no stone unturned in your efforts toward bringing about an amicable agreement between the coal operators and the miners. —Drumheller Review.

A preacher was addressing the Sunday school and explaining the significance of white.

"Why?" he asked, "does a bride desire to be clothed in white at her marriage?"

As no one answered he went on. "Because white stands for joy, and the wedding day is the most joyous event in a woman's life."

Immediately a little fellow interrupted.

"Please sir, why do all men wear black?"

Lewis McDonald, who a year or so ago resided for a few months in Blairmore under the style of "Kid Burns" and who for a time held an office with the A.M.W.U. A. is in the toils at Drumheller, charged with perjury following an assault case.

### CITY TEACHERS

### WILL SPECIALIZE

A new system in teaching, meeting with success in the East and being tried at Vancouver, will be given a test in the schools of that city this winter. Specialization on the part of the teachers is the main feature. Each teacher will have charge of two or three subjects of the curriculum and pass from class to class on these subjects within her grade. By this method, known as the Platoon System, it is hoped to impart a knowledge of the subjects to the pupils in a more thorough manner than is possible when a teacher is responsible for a class in every subject. The adoption of this system has also made it possible for the School Board to reduce the staff from ten to nine teachers.

### AIN'T IT THE TRUTH?

There are shadier towns than ours; little town, there are towns that are bigger than this. And the people who live in the quieter towns don't know what excitement they miss. There are things you see in the wealthier towns that you don't see in a town that's small; and yet up and down, there is no other town like our little town after all.

In the glittering streets of the glittering town, with its palace and pavement and throng; in the midst of the throng you will frequently long for your own little town after all. If you live and you work in your own little town, in spite of the fact that it's small, you'll find in the end that our own little town is the best little town after all.—Exchange.

### HELP TO SAVE THE FISH

Fishing and hunting are the most ancient industries of man. They existed long before agriculture. When a man fishes, he answers the call of the wild inherited from barbaric ancestors.

No real sportsman ever catches and kills more fish than will be eaten. To do so is vandalism.

All anglers know that the streams and lakes of our continent are gradually being "fished out." Restocking is unable to keep up with catches. Accordingly, good sports will make use of this fact:

When you catch a fish too small to keep, always handle him with wet hands. A dry hand is almost certain to kill the fish, for it ruins the oily protective film over the scales.

Another thing: An angler enraged because the fish isn't large, often hauls it viciously far from him. This is apt to kill the fish within a few days. A fish isn't made of iron. And water is hard, as you know if you ever hit it flat with your stomach in diving.

Play the game fairly. Be a good sport. Help conserve our vanishing fish resources. Ex.

### THE GLORIES OF THE ROCKIES

Recently the Rev. C. W. King, of Mount Pleasant Church, Toronto, visited the Rockies and on his return to "The Holy City (?)" made the following comment in the course of a lantern lecture, describing the chief mountain peaks, passes, canyons, rivers, glaciators etc.:

"The Rockies are equal to fifty Switzerland's thrown into one. The bridging and tunnelling of the Canadian Pacific Railway through the Rockies was an immense feat of engineering, including the great Spiral Tunnels at Cathedral and Ogden mountains, where the tracks turn two complete circles within these great peaks, forming the figure eight and cutting down the gradient from 4.5 per cent to less than one half. Some of the finest mountain scenery in the world is to be seen."

He also noted the ban of the liquor traffic in British Columbia, as compared with the blessing that has come through prohibition in Alaska, citing Skagway as a picture, once the wildest and wickedest town in the world, now a model of propriety.

BLAIRMORE CAMP SITE  
ENTERTAINS 612 PEOPLE

Since the opening of the Blairmore tourist campsite for the 1924 season on June the 7th last, no less than 612 persons have registered, comprising 169 auto parties. In addition it may be estimated that at least one hundred stopped at the campsite, but failed to register.

From the "Tourists' Log" we gather the following remarks:

"Thank you" and "Jake" fifty times over.

"Thanks to Blairmore for hospitality."

"Good luck to Blairmore."

"One of the best camps."

"Jaks" and "Ditto."

"Many thanks for a nice camp."

"Very fine camp. Perfect."

"Appreciated very much."

"Thanks for accommodation."

"By far the best."

"This is a dandy little camp. Thank you!"

"Splendid equipment and good grounds."

Dr. Manley and family, of Saskatoon: "We are delighted with the scenery, the modern conveniences of your pretty town, and the delightful cordiality and hospitality of your citizens. We can hardly tear ourselves away."

"Best camp in 1920. Wonderful.

"Best camp we have struck on the Banff-Windermere circuit tour."

"Best camp entour. Beats Water-ton Lakes a mile."

"Best we have found in Canada." Bert Hudkins, Los Angeles, California.

A few days ago a party of Quebec tourists enjoyed a night in camp on the Blairmore campsite. The register there has a column in which to register the number in the party. A lady in the party, however, figured that information as to her age was required and dotted down 67.

ST. ANNE'S ANNUAL  
SUNDAY SCHOOL PICNIC

St. Anne's Parish Sunday School picnic was held on Tuesday afternoon. The children with their parents, and Sunday School teachers assembled at the church grounds at 1 p.m. and were conveyed by autos to a beautiful shady nook just west of the golf course. Some 250 attended—approximately fifteen auto loads.

To say the picnic was a success would be putting it mildly. Each and every one enjoyed themselves to their hearts' content and the older people took as much interest as the youngsters. Undoubtedly, it reminded them of their younger days, when they, too, participated in the joys of childhood.

Much credit for the grand success of the picnic is due to the pastor, Father Cosman, whose untiring efforts made the picnic what it was—the event of the year for St. Anne's parish. The various committees, also, deserve praise for the deep interest they took for their work materially added to the success.

Ice cream, candy, peanuts, kisses and suckers were generously distributed. Every minute of the afternoon was taken up with various sports and games. A big feed was had, after which all returned home, thoroughly tired out, but more than satisfied and contented with the outing.

The sincere thanks of Father Cosman and the committee is extended to auto owners who so willingly loaned their autos to bring the kiddies to and from the picnic grounds.

While visiting his old home in Harmony, Nova Scotia, Prof. E. Archibald, of the faculty of chemistry of the University of British Columbia, Vancouver, was struck with paralysis while haymaking. Shortly afterwards his little daughter, aged 11, was seized with sudden illness and despite all medical aid passed away in the county hospital. Professor Archibald is still confined to his bed.

## STUART-AIKENS

The following is copied from The Wetaskiwin Times of July 24th date. The bride is a sister of Mrs. (Rev.) W. T. Young, of Blairmore, and was a recent visitor here:

"Willowdale Farm, Millet, the home of Mr. and Mrs. Thomas Aikens, was the scene of a very pretty wedding on Friday afternoon, July 18th, when their daughter, Sarah Elizabeth (Daisy), was united in marriage to Mr. Harry Stuart, manager of the Millet branch of the Beaver Lumber Company, (Northern) Limited. The bride was given away by her father, and her sister, Miss Hazel Aikens, acted as bridesmaid, the groom's mother, Mr. A. C. Kent as groomsman.

The ceremony took place under the arch of boughs and flowers on the lawn adjoining the house, and was conducted by Rev. W. T. Young, of Blairmore, a brother-in-law of the bride, who was assisted by Rev. I. N. Hugheon, of Donalda, and Rev. Percy Johnson of Millet.

"After the ceremony, Mrs. A. A. Dickson, of Ferintosh, delighted the guests with the singing of a beautiful solo. A buffet luncheon was then served on the lawn, after which the happy couple left on a motor trip to Beadle, Saskatchewan, where the mother and other relatives of the groom reside. After a short honeymoon, the newly-weds will take up residence on their farm, a short distance east of Millet.

"The groom's gift to the bride was a beautiful combination suit case and dressing case, to the bridesmaid a bar pin, and to the groomsman a fountain pen. The numerous costly and useful presents which the couple received testified to the very high esteem in which they are held by their many friends in the adjoining district and also from afar."

## PROMPT DELIVERY

## Local and General Items

Mr. and Mrs. Green, of Manyberries, were in town on Monday.

J. E. Gillis and F. S. Kafoury were business visitors to Calgary during the week.

Miss Mary Watkins, of Lethbridge, has been the guest during the week of the Misses Knappan.

Fernie will have a public swimming pool and work of construction has already commenced.

Rev. Mr. Burge, Presbyterian minister at Vanguard, Sask., spent last week end in town with his family.

Mr. and Mrs. L. H. Putnam and Miss B. Douglas spent part of the week with friends at the South Fork.

Quite a number of local folks attended the Pincher Creek fair and stampede on Tuesday and Wednesday.

A Morency and party returned from the South Fork last week end, having had a rather successful fishing trip.

M. Belecky and family returned on Saturday last from Waterton Lakes, where they had been camping for a week.

A number of very fine residences are being erected along State and Cement Streets. Most of them will be stucco finished.

Messrs. Dr. Olivier, C. J. Tompkins and W. J. Bartlett were visitors to Waterton last week end, returning to town on Friday.

Mayor McLeod and Mrs. McLeod left by Sunday morning's train for the Pacific Coast, where they will visit for a few weeks.

Charlie Pendleton has opened a cafe in Macleod, to be known as "Charlie's Cafe." Charlie was a former employee of the C. P. R.

Hon. Frank B. Carvell, chairman of the board of railway commissioners, died suddenly on his farm in New Brunswick on Saturday last.

Rev. W. T. and Mrs. Young and children returned last week end from Edmonton and Milet, where they had been holidaying for a few weeks.

The initiatory degree was conferred on a class of candidates at the regular meeting of Livingstone Lodge No. 22, K. of P., on Friday night last.

A very enjoyable dance was held at the ballroom of the Frank Hotel on Monday night, music being furnished by the Plaza Imperial Orchestra.

G. F. Walker, noted editor and agricultural writer of England, was a visitor to the province last week, obtaining new material for articles on Alberta.

Canon Ronald Hilton, former rector of Christ Church, Macleod, died in Seattle on July 18th. Canon Hilton went overseas with the 225th Edmonton Battalion.

Work on the new residence being erected by Messrs. Pozzi & Son near the Court house property, is progressing favorably. The cottage will be one of the finest in the district and when completed will be occupied by Robert Gray and family.

TOWN RECEIVES LARGE  
PORTRAITS OF VISITORS

Before leaving Blairmore, His Excellency the Governor-General took occasion to present the Town of Blairmore with two beautiful and large photogravures of Lord and Lady Biny.

These, we understand, are to be framed and will occupy a place in the council chamber beside those of the Duke and Duchess of Devonshire.

POSSIBILITY OF SETTLEMENT  
OF MINERS' STRIKE THIS WEEK

During the week the representatives of District 18 of the U. M. W. of A., and of the Western Canada Coal Operators' Association have been in conference at Calgary. While nothing definite has been given out, the general belief is that an agreement satisfactory to both the parties will be entered into and that the end of the strike, which has lasted for over four months, is near.

Police are checking up on boy chauffeurs who may be under the age of sixteen. A next-door neighbor of ours suggests that they should also check up on all lady chauffeurs who may be over forty.

Maurice Bond, third son of Mr. and Mrs. George Bond, of Street Street, had the misfortune to lose a portion of two fingers by coming into contact with a saw at the McLaren Lumber Company's mill last week.

Mrs. M. Johnson and children arrived here last week end to join Mr. Johnson, mine inspector. The Johnson family have taken up residence in the house formerly occupied by the Crowder family in West Blairmore.

Mr. and Mrs. Harold Tom, of the Blairmore market of P. Burns & Co., accompanied by Mrs. Tom, senior, stopped at the Blairmore campsite last week, enroute on a holiday trip over the Banff-Windermere highway.

Acting for William Ferguson, owner of the Alberta Hotel, recently destroyed by fire at Bassano, Solicitor O'Neal has notified the Bassano town council that action will be taken in the Supreme Court for the return of \$3,168.37 paid by Mr. Ferguson as taxes.

Ex-Constable A. P. Pase, of the R. C. M. P. and A. P. P., passed through here on Saturday enroute from Los Angeles to Edmonton by Ford. Constable Pase was in this district at the time of the Piccarillo man-hunt, and resigned his position with the A.P.P. shortly afterwards.

Announcement of the marriage of a Blairmore waitress to a young Lethbridge man is crowded out of this issue and will appear next week. The affair, in which many local folks are interested, was pulled off quietly at Waterton Lakes.

L. Dutil, Prop. Phone 64 Blairmore

## Strictly Correct Apparel

for men must be made for them individually. Whether civilians or soldiers the clothes you wear can only be strictly satisfactory if they are made especially for men who wear them. We are making officers' uniforms for men who appreciate good tailoring and correct form. We shall be glad to have you call and select the cloth for the new apparel you are in need of.
